Objective

Motivated Computer Science Engineering student seeking an opportunity to apply strong programming, problem-solving, and software development skills to contribute to innovative projects while continuously learning and growing as a software developer.

Education

- **Sri Vasavi Engineering** (pursuing)
  B Tech
  9.4
- **Board of intermediate education** 2023
  Intermediate
  958
- **Board of secondary education** 2021
  10
  591

Projects

- **Train ticket booking system**
  I have done this in python
  It helps us to book the tickets and helps to track the live location of train
- **Lstm based battery soh prediction**
  This project focuses on developing a battery health monitoring and prediction system using machine learning techniques. The system analyzes battery data such as voltage, current, temperature, cycle number, and SoC to estimate the State of Health (SoH) of the battery.

Experience

- **Google for developers** July - September(2024)
  Android developer virtual internship
  Completed a 10-week virtual internship focused on Android app development

Certification

- Microsoft Azure AI fundamentals
- Completed my basic English certificate from Cambridge
- The Joy of computing in python from nptel
- Internet of things provided by nptel
- Oracle certified professional
- Sales force certificatied

Achievements & Awards

- Solved 100+ problems on LeetCode
- Solved 200+ problems on geeksforgeeks
- Member of a google developer group technical club

Languages

- English
- Telugu

Technical Skills

- C
- Java
- Advanced data structures
- DBMS basics
- Software engineering basics
